

Eastern Sierra Transit Authority (ESTA)

Addendum to Request for Proposals for Short Range Transit Plan and
Coordinated Human Services Plan for
The Eastern Sierra Transit Authority
Transit Operations Facility Project

Date: April 29, 2021

From: Phil Moores, Executive Director,
Eastern Sierra Transit Authority

This is an addendum to the Request for Proposals issued February 25, 2021.

I. General questions asked.

- If available, what is the maximum budget available for the consultant's work?
 - \$135k
- The RFP identifies a total of 27 deliverables. To aid in the document review process, can the consultant propose a set of combined deliverables so long as all the identified elements are included and defined?
 - yes
- Payment on a per-deliverable basis for a complicated planning study such as this has proven to be difficult in our experience. Is monthly invoicing with documentation regarding progress on each deliverable acceptable?
 - yes
- The scope makes no mention of onboard surveys. Would ESTA consider this additional task as beneficial?
 - yes
- Can some of the monthly project team meetings be conducted via teleconference?
 - Sure, all or most

Any further questions and answers about this project will be posted as addendums on ESTA's website.
