

How can we improve transit and transportation services in Mono and Inyo Counties?

We want to hear from you!

The Eastern Sierra Transit Authority (ESTA) is updating the Short Range Transit Plan and Coordinated Human Services Plan for Inyo and Mono Counties.

This plan reviews existing transportation services, identifies current challenges, and recommends ways in which to better connect people to goods and services. It will also consider services within our communities, between our communities, as well as connections to Southern California and Northern Nevada.

We want to hear from you on ways in which we can improve our transportation system and get you where you need to go!

Please join us for our first Virtual Public Workshop on **October 27th** at 2:00 PM by visiting <https://us06web.zoom.us/j/88979251758>
